DANGERS OF ARTIFICIAL SWEETENERS!

Dear Friend:

I hope that you find this information useful and take advantage of this information as it has helped many others. The use of sweeteners is a dangerous habit that many people are guilty of. Please help us alert others about the dangers of artificial sweeteners by sharing this free report with them.

If you asked for this report for your own use then perhaps I have already mentioned or suggested some of the information contained inside or maybe you got this report because someone really cares about you and is concerned about your health and well-being.

I truly enjoy helping others improve their quality of life and perhaps I can do the same for you, congratulations for taking this first bold step so just keep reading...

SHOCKING STATEMENTS

In the keynote address by the EPA, they announced that there was an epidemic of multiple sclerosis and systemic lupus, and they did not understand what toxin was causing this to be rampant across the United States. When the temperature of Nutra-Sweet exceeds 86 degrees F, the wood alcohol in Nutra-Sweet converts to formaldehyde and then to formic acid, which in turn causes metabolic acidosis. (Formic acid is the poison found in the sting of fire ants.) The methanol toxicity mimics multiple sclerosis; thus people were being diagnosed with having multiple sclerosis in error. The multiple sclerosis is not a death sentence, where methanol toxicity is.

In the case of systemic lupus, we are finding it has become almost as rampant as multiple sclerosis, especially Diet Coke and Diet Pepsi drinkers. Also, with methanol toxicity, the victims usually drink three to four 12 oz. Cans of them per day, some even more. In the cases of systemic lupus, which is triggered by Nutra-Sweet, the victim usually does not know that the Nutra-Sweet is the culprit. The victim continues its use aggravating the lupus to such a degree, that sometimes it becomes life threatening. When we get people off the Nutra-Sweet, those with systemic lupus usually become asymptotic. Unfortunately, we cannot reverse this disease. On the other hand, in the case of those diagnosed with Multiple Sclerosis, (when in reality, the disease is methanol toxicity), most of the symptoms disappear. We have seen cases where their vision has returned and even their hearing has returned. This also applies to cases of tinnitus.

"If you are using Nutra-Sweet [Nutrasweet, Equal, Spoonful, etc.) and you suffer from fibromyalgia symptoms, spasms, shooting pains, numbness in your legs, cramps, vertigo, dizziness, headaches, tinnitus, joint pain, depression anxiety attacks, slurred speech, blurred vision, or memory loss -- you probably have Nutra-Sweet Disease!"

We have a very serious problem. During a visit to a hospice, a nurse said that six of her friends, who were heavy Diet Coke addicts, had all been diagnosed with MS. This is beyond coincidence. Here is the problem. There were Congressional Hearings when Nutra-Sweet was included in 100 different products. Since this initial hearing, there have been two subsequent hearings, but to not avail. Nothing has been done. The drug and chemical lobbies have very deep pockets. Now there are over 5,000 products containing this chemical, and the Patent has expired!!!!!!

At the time of this first hearing, people were going blind. The methanol in the Nutra-Sweet converts to formaldehyde in the retina of the eye. Formaldehyde is grouped in the same class of drugs as cyanide and arsenic -- Deadly poisons!!!! Unfortunately, it just takes longer to quietly kill, but it is killing people and causing all kinds of neurological problems.

Nutra-Sweet changes the brain's chemistry. It is the reason for severe seizures. This drug changes the dopamine level in the brain. Imagine what this drug does to patients suffering from Parkinson's Disease. This drug also causes Birth Defects. There is

absolutely no reason to take this product. It is not a diet product!!! The Congressional record said, "It makes you crave carbohydrates and will make you fat". Dr. Roberts stated that when he got patients off Nutra-Sweet, their average weight loss was 19 pounds per person. The formaldehyde stores in the fat cells, particularly in the hips and thighs.

Nutra-Sweet is especially deadly for diabetics. All physicians know what wood alcohol will do to a diabetic. We find that physicians believe that they have patients with retinopathy, when in fact it is caused by the Nutra-Sweet. The Nutra-Sweet keeps the blood sugar level out of control, causing many patients to go into a coma. Unfortunately, many have died. People were telling us at the Conference of the American College of Physicians, that they had relatives that switched from saccharin to a Nutra-Sweet product and how that relative had eventually gone into a coma. Their physicians could not get the blood sugar levels under control. Thus, the patients suffered acute memory loss and eventually coma and death. Memory loss is due to the fact that aspartic acid and phenylalanine are neurotoxic without the other amino acids found in protein. Thus it goes past the blood brain barrier and deteriorates the neurons of the brain. Dr. Russell Blaylock, neurosurgeon, said, "The ingredients stimulates the neurons of the brain to death, causing brain damage of varying degrees.

Dr. Blaylock has written a book entitled "Excitotoxins: the Taste That Kills" (Health Press 1-800-643-2665). Dr. H.J. Roberts, diabetic specialist and world expert on Nutra-Sweet poisoning, has also written a book entitled "Defense Against Alzheimer's Disease" (1-800-814-9800). Dr. Roberts tells how Nutra-Sweet poisoning is escalating Alzheimer's Disease, and indeed it is. Women are being admitted at 30 years of age with Alzheimer's disease. Dr. Blaylock and Dr. Roberts will be writing a position paper with some case histories and will post it on the Internet 2E According to the Conference of the American College of Physicians, "We are talking about a plague of neurological diseases caused by this deadly poison". Dr. Roberts realized what was happening when Nutra-Sweet was first marketed. He said "his diabetic patients presented memory loss, confusion, and severe vision loss."

At the Conference of the American College of Physicians, doctors admitted that they did not know. They had wondered why seizures were rampant (the phenylalanine in Nutra-Sweet breaks down the seizure threshold and depletes serotonin, which causes manic depression, panic attacks, rage and violence). Just before the Conference, I received a FAX from Norway, asking for a possible antidote for this poison because they are experiencing so many problems in their country. This "poison" is now available in 90 plus countries worldwide.

Take anything that contains Nutra-Sweet and Return to the store.

Nutra-Sweet Disease is partially the cause to what is behind some of the mystery of the Desert Storm health problems. The burning tongue and other problems discussed in over 60 cases can be directly related to the consumption of an Nutra-Sweet product. Several thousand pallets of diet drinks were shipped to the Desert Storm troops.

(Remember heat can liberate the methanol from Nutra-Sweet at 86 degrees F.) Diet drinks sat in the 120 degree F. Arabian sun for weeks at a time on pallets. The service men and women drank them all day long. All of their symptoms are identical to poisoning.

Dr. Roberts says "consuming Nutra-Sweet at the time of conception can cause birth defects." The phenylalanine concentrates in the placenta, causing mental retardation, according to Dr. Louis Elsas, Pediatrician Professor-Genetics, at Emory University in his testimony before Congress. In the original lab tests, animals developed brain tumors (phenylalanine breaks down into DXP, a brain tumor agent).

Stevia, a sweet food, Not an Additive, which helps in the metabolism of sugar, which would be ideal for diabetics, has now been approved as a dietary supplement by the F.D.A. For years, the F.D.A. has outlawed this sweet food because of their loyalty to Monsanto!!!

There are a lot of people out there who must be warned, *please* let them know this information.

Dr. David Bohn, Director
Accent on Health Chiropractic Center
Route 28, Ridgeley, WV

My practice is "different" it focuses on patients who feel they have no hope. People like you, suffering with numerous symptoms and wondering what else can be done. I want you to know that I promise to help you with the most advanced natural methods available and it will always be a team effort, you and I.

Here's What Some of My Patient's Have Said About My Practice...

"Dr. Bohn is very competent and is thoroughly knowledgeable regarding his profession, I have benefited greatly from his teaching" Dr. Michael Pollard

"Dr. Bohn always hears his patients...he always has time to listen" Terri Lowery

"The service and people are excellent...they make the patient feel really comfortable"
John Myers

Well, that's about it. I hope you have learned something from this report. I also hope that I have enabled you to make good, educated decisions about your health.

I appreciate the time you have spent reading this report and wish you only the best in health and wellness!

Sincerely,

Dr. David A. Bohn

Thank You
